Philips Avent
DECT baby monitor

SCD499

Guaranteed zero interference

With DECT digital technology

This digital technology provides a secured, private connection, because you want to be the only one listening to your baby. Automatically chooses an unused channel and switches as it detects another device using the same channel.

Complete peace of mind
- Remotely monitor the baby's room temperature.
- Guarantees zero interference from any other device
- Indicates a continuous connection between the two units.
- Uses lights to indicate if the baby makes noise.

Ultimate mobility in and around the house
- Travel pouch protects units while traveling.
- Belt clip and neck cord for hands-free convenience.
- Rechargeable parent unit for minimum 24 hours of monitoring.
- Small, mobile parent unit to freely roam around the house.
- 300M range ensures secure reception in and around the house.

Soothing sights, sounds and words
- Five lullabies soothe baby to sleep.
- Comforts the baby in the dark with soothing stars
- Provides the ability to allow you to talk to the baby
